

PEPERUN

Froggy Paper

What is Pepe Run?

PEPERun, born out of PEPE's epic success and newfound wealth, got a little too comfortable living the high life. Faced with the realization that he had become the chonky meme of the crypto world, PEPE decided to embark on a hilarious journey to shed those extra meme pounds.

Join PEPERun as he sprints his way to crypto greatness, leaving behind the decadence of a privileged meme life. Watch the memescape unfold as PEPE embraces the spirit of Forrest Gump and runs towards the crypto Bull Run, proving that even meme icons need a workout routine.

PEPERun – because even memes want to stay in shape for the crypto spotlight! Get ready to run with the legend and witness the fitness-fueled hilarity as PEPE takes memes to new heights on this crypto adventure.

Benefits of \$PEPERun

- 1. In-Game Advantages:** Holders of the PEPErun token gain access to exclusive privileges within the game, including access to the final two levels and other upgrades. This creates an incentive for players to become token holders, enhancing the token's value.
- 2. Deflationary Mechanism:** With 0.1% of every transaction burned, the token's total supply continually decreases, leading to scarcity and an increase in value over time. This deflationary model rewards long-term holders and contributes to the token's sustainability.
- 3. Safety and Security:** PEPErun token is audited and deemed secure, providing peace of mind to investors. Ownership has been renounced, and 100% of the tokens are locked, eliminating the risk of rug pulls or team manipulation.
- 4. Community Funding:** A percentage of every transaction (0.5%) goes towards the admin to fund exchange listings, marketing initiatives, and expansion efforts. This ensures the continuous growth and development of the PEPErun ecosystem, benefiting all stakeholders.
- 5. Liquidity Provision:** To maintain liquidity levels for trading, 0.4% of every transaction is allocated to the PancakeSwap liquidity pool. This ensures a smooth and seamless trading experience for token holders, promoting liquidity and market stability.

PEPERun Game

PEPERun is not just a token; it's a gateway to a thrilling gaming experience that will keep you on the edge of your seat.

Imagine a game that takes you through 8 levels, each with its own unique challenges and settings. From lush jungles to icy mountains, from bustling cities to serene beaches, PEPERun transports you to diverse landscapes where you'll test your skills and push your limits.

But here's the twist: only holders of the \$PEPERun token get to unlock the full potential of this epic journey. As a token holder, you'll gain access to exclusive privileges and rewards within the game.

Compete with players from around the globe on the live worldwide leaderboard as you strive to become the ultimate PEPERun champion. Dodge obstacles, sprint through courses, and race against the clock to secure the fastest times in each round.

PEPERun will be available on iOS and Android app stores in May 2024.

Tokenomics

\$PEPERun is a deflationary token with 0.1% of supply being burned from every transaction. 100% of the tokens are locked for 12 months. The smart contract ownership is renounced. There are no taxes for transfers. There is a small 1% tax on buy/sell orders to keep the project sustainable. 0.1% of every order is burned to decrease supply constantly, 0.4% goes back to liquidity and 0.5% goes to admin for marketing and CEX.

\$PEPERun, is the official token for the PEPErun game due to be released in May 2024 (IOS & Android). Holding \$PEPERun entitles you to privileges in the game that standard users don't have access to. Simply login via web3, the script will confirm that you hold \$PEPERun and you will get Gold Class access within the game.

Audit

Investor security is PEPE's top priority! Which is why he placed a great emphasis on audit verification for his latest project. With blockchain transactions being irreversible, Pepe understands the importance of having secure and bug-free code. That's why he conducts thorough audits on his smart contracts to ensure they are free from vulnerabilities that could compromise investor funds. Pepe's commitment to security and transparency means that he takes full responsibility for the progress of the project, and he will always prioritize the safety of our investors' assets.
